

WINE TOUR

It starts from your place and you are going to visit 3 wineries to have a wine tasting:

ARGYROS WINERY: *Estate Argyros has been established in 1903, but the Argyros family has been involved in wine production for decades before that. It is the largest private owner of vineyards in Santorini and the current landholdings exceed 120 ha, a vast, four-generations-long investment.*

KOUTSOUYIANOPOULOS WINERY: *The only underground Wine Museum in Greece and one of the ten best wine museums in the world and it is 8 meters below the surface of the earth.*

SANTO WINES: *The Santo Winery, which opened in 1992, is located in Pyrgos and enjoys spectacular views of the caldera and the Mediterranean Sea. A highly modernized winery where technological advancement is in total harmony with traditional methods.*
